

MONTAGE BEVERLY HILLS

*Live like a movie star in this
Hollywood pleasure dome*

Right in the heart of Beverly Hills this luxurious hotel offers elegance and exclusivity. Just thirty minutes from Los Angeles' International Airport and just minutes from the retail heaven that is Rodeo Drive, and yet once inside its portals all is calm and tranquil.

Built in Spanish Colonial Revival style it is like a mini castle with its fountains and landscaped gardens, spacious rooms and grand public rooms. It also draws on those classic Californian colours of gold and sand, coral and cream to allow everything to reflect the light of the sun of America's golden state. And although the decor and architecture are a salute to the city's history, the amenities are a tribute to all that is modern, comfortable, efficient and elegant.

The rooms and suites are spacious while the public rooms, bars and dining experiences are all the discerning guest requires. For instance, the new garden-side Scarpetta Beverly Hills, by acclaimed Chef Scott Conant, delights with soulful Italian cuisine. It is as popular with locals as with guests with its manicured topiary gardens. The rooftop bar and grill has some of the best views of the Hollywood Hills by day, as well as by night. It is here, too, that you get to relax by the pool after a tough morning's shopping. Also on offer is a Chef's Table, the ideal place to spoil yourself. However, as it only seats 12, it is best to make your table booking when making your reservations.
